Astra Flor™ is the newest Koro-Trans™ transit flooring product
(formerly referred to as Meta Flor)

Fairlawn, Ohio — April 14, 2015 – Astra Flor™ provides an aesthetically pleasing metal flake look that is designed to enhance any vehicle interior. This combination of a new design choice with the time-tested durability of Koro-Trans™ flooring creates a very unique look.

In announcing this initiative, Jack Woodyard, vice president, stated, “This new product expands our available transit flooring options while providing the same level of high performance that customers expect.”

Astra Flor options include all smooth, or smooth/rib full width one piece construction. The Astra Flor system is suited for all types of bus applications.
