

Koro Mat is back!! Get ready for a suite of exciting new products and capabilities to light a fire in your marketplace.

Fairlawn, Ohio - March 21, 2017

ProFusion Industries is excited to announce our return to the Matting marketplace with the roll out of our full line of Koro-Mat runner matting products. The combination of new product development capabilities and our time proven dedication to quality, personal engagement and superior customer service all go to support our return to this market. We look forward to exceeding your expectations.

In announcing this initiative, Jon Golden, President stated, "our return to this business is also the return of the dedication and commitment that all of our people demonstrated for many years as RJF International. Now under the ProFusion flag, we are singularly focused on breathing new life into this exciting category, a category that is full of opportunity for the creative minds at ProFusion."

ProFusion Industries manufactures Matting products in their 400,000 square foot facility located on 60+ acres in Marietta, Ohio, with corporate offices in Fairlawn, Ohio.
